

IN A 4 IN ONE STEP BUILDING SYSTEM THAT WORKS

## EVERYONE PROFITS

The Customer...

- Saves 50% or more in utility costs.
- Benefits from Expanded Polystyrene "R" Values, which last for the life of the home.

20,000 square foot Shop, North Pole, Alaska

The Builder...

- Saves because of lower material costs.
- Reduces labor costs associated with insulating, sheathing, installing vapor barriers, blocking, let-ins, ladder bracing and cripple studs.
- Do 3 times as many shells with the same crew. Less trades needed.
- Minimizes installation time, which equates to lower construction loan interest and security costs.
- Lower up-front heating and cooling mechanical requirements
